There are many more breweries in Vermont, but I am only listing the breweries in the Northwest area that are relatively close to Burlington.

This list is not meant to be inclusive of all breweries, restaurants and beer sellers. I have included those that I think will be of most interest to the "ATL" audience.

As brewers develop markets and as Vermont laws change, what is available at the breweries may change. If interested in anything specific, please call ahead.

This list is available on an "as is" basis and is updated only occasionally.
